**Zadeva:** ESTUS Slovenia - request to support our announced strike

Dear colleagues in Slovenia

On behalf of 51.000 Danish educators united in BUPL, I like to express my appreciation and solidarity for your requests for decent salaries and recognition of the professional needs of kindergarten educators and primary teachers. The future of every society is based upon childrens learning and wellbeing - and the quality of education and teaching depends on a respected and valued profession. The fight for decent and equal pay is crucial for educators and teachers in your country as everywhere!  
I wish you progress and success!

Best regards  
Lasse Bjerg Jørgensen

Med venlig hilsen / Kind Regards
