Dear Colleagues,

Message of Solidarity

The Danish Union of Teachers stands beside you in your righteous struggle for better pay and working conditions for the teachers of Slovenia.

Since the beginning of the worldwide financial some ten years ago, education has been exposed to harsh austerity measures – and your members, the teachers, is a profession that has had to pay the price.

It's admirable that the Slovenian teachers have shown a tremendous dedication in their work for the future generation – without receiving any kind of recognition from the Slovenian government.

Please be reassured that the Danish teachers are with you in solidarity.

Yours sincerely,

Anders Bondo Christensen
President
Danish Union of Teachers
