Athens, 12/2/2018

Dear Colleagues,

The Executive Board of OLME stands in solidarity with the teachers of Slovenia and their fair fight. It is our strong conviction that teachers need to make a decent living on their salaries. Poorly paid teachers who struggle to make a living daily cannot, surely, be efficient in their demanding work.

It is a true fact, regrettably, that with the pretext of the financial and economic crisis a lot of European countries including Greece have done drastic cuts in their education budgets. Such policies, however, most certainly undermine the future of the upcoming generations as well as the future of the countries implementing them.

Brussels' Institutions are also to be held accountable for these policies as they are strictly focusing on logistics while entirely ignoring the human aspect.

All teachers should fight so that these policies dictated by the European Union and the transnational institutions are abolished.

In closure, we wish you success in your fair fight and consider that the Greek teachers stand by your side.

For the E.B. of OLME,

Ο Πρόεδρος
Νικόλαος Παπαχρήστος

Ο Γεν. Γραμματέας
Θεόδωρος Μαλαγάρης

The President,
Nikolaos Papachristos

The General Secretary,
Theodoros Malagaris
