DECLARATION

from the Executive Board of Teachers Trade Union
„Podkrepa", BULGARIA

DEAR BROTHERS AND SISTERS,

We, expressing our unreserved support, stand firmly behind your fair demands for decent pay, decent work and human rights.

The tension, caused by the unacceptable practice that the dedicating work of the education staff is being neglected and the low salary levels of the teachers in Slovenia, is more than worrying and requires concrete measures to improve the status of the teachers, the adequate payment, increase in investments in the education and professional development of teachers.

The lack of the conditions, listed above and the decent remuneration of the employees of education section, in order to fulfill their duty to the society is unacceptable for the 21st century.

It is about the authority and dignity of people, protesting against violation of their human and labor rights

For You, brothers and sisters, we express our trade union solidarity.

Be brave and strong, and stand up for your fair demands for decent work and dignified life.

Julian Petrov,

President
